Fog

A photograph of a misty landscape. In the foreground, there are green grassy fields and clusters of trees. Some trees have yellow autumn leaves, while others are dark green. The middle ground is filled with thick, white fog that covers the hills. In the background, more trees are visible through the mist, creating a sense of depth and mystery.

Focus Question

What is fog, and where can you see it?

Fog looks like low clouds.

Fog looks white
and spooky.

Fog can form out
of small water drops.

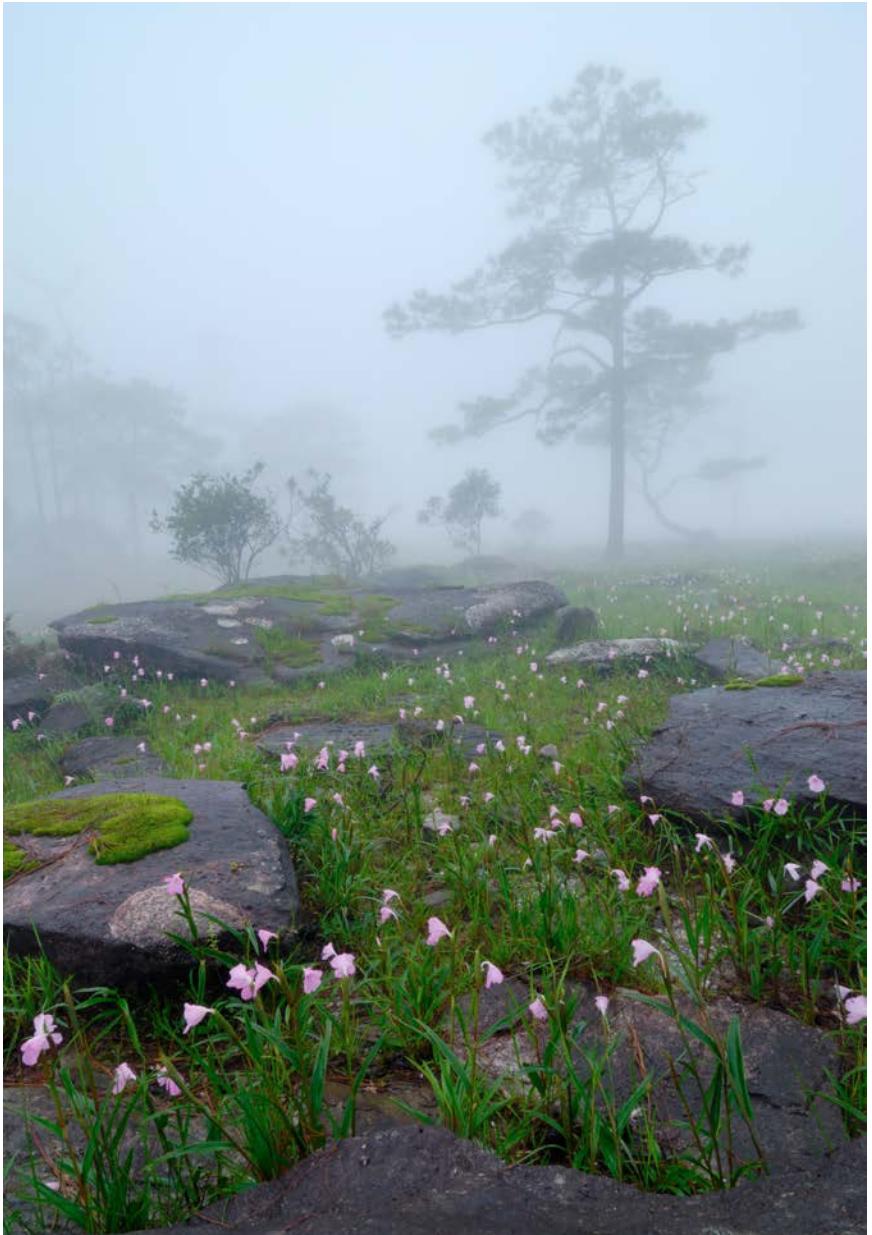

Fog can form out
of tiny pieces of ice.

Fog sometimes forms
near water.

Fog sometimes forms
near mountains.

Fog sometimes forms
over wet land.

Fog always forms near
the ground.

Fog always forms where air is still.

Fog always makes
it hard to see.

Words to Know

fog
form
ice

spooky
still
water
